Response to Applicant's Amendment

1. The amendment filed November 12, 2004, has been entered and made of record. Claims 1-41 have been canceled. Claims 42-60 have been added. Claims 42-60 are pending.

The Cancellation of claims 1-41 renders moot all outstanding rejections. New claims 42-60 present claims that incorporate subject matter indicated as allowable in the previous Office Action.

The proposed drawing change filed on October 20, 2003, was accepted by the Examiner. Replacement drawing sheet(s) including the correction is required. See 37 CFR 1.121(d).

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Independent claims 42, 46, 47, 49-51, 53-55 and 59-60 are essentially equivalent to previous claims 2, 7, 8, 10-12, 14, 15, 28, 33 and 34 respectively, including the base claims and intervening claims. The latter claims were indicated as containing allowable subject matter. Therefore, claims 42, 46, 47, 49-51, 53-55 and 59-60 are allowable. All other pending claims depend from these claims. With regard to "controlling" the device (as opposed to the terminal), in claim 59 for example, the meaning of "controlling" is

taken within the context of the specification, and not considered mere movements of the device, although "controlling" is performed by such movements.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
